

INSTALLATION INSTRUCTIONS FOR PLASCORE SNOW WHITE TOUCH UP PAINT (FOR DOORS AND OTHER POWDER COATED SURFACES, PAINT PART #41708D)

Instructions available in Spanish

1. Paint Part# 41708D is a glossy Snow White epoxy touch up paint to be used on doors and other snow white epoxy powder coated parts.
2. Paint Part# 41708D is a two part epoxy composed of paint 41708D-A, and converter #41708D-B.
3. Add contents of container 41708D-B to contents of container 41708D-A and mix thoroughly.
4. Allow 15 minutes prior to applying.
5. Apply with brush, roller, airless spray, or air spray to achieve desired finish.
6. It may be necessary to apply bondo to dents or chipped paint to achieve a smooth finish.
(Not provided by Plascore)
7. See attached data sheets for additional information.
